

PRIMER SELECTIONS - INTERIOR GYPSUM BOARD (DRYWALL)

0718 Ambassador Interior Drywall Primer

A high quality pigmented acrylic primer / sealer formulated to seal the most difficult surfaces. May be used under alkyd or latex products to provide the finest two-coat system. Fast drying, low odor, use under all sheens, flat to high gloss.

Recommended Surfaces: Gypsum Board, Wood, MDF - Interior

0800 P.D.Q. High Hide Primer Sealer

A high hiding latex primer / sealer formulated to seal new gypsum board surfaces. May be used under alkyd or latex products. Insures complete sealing of drywall joint tape and joint compounds. Fast drying, low odor and water clean up for use under all sheens, flat to high gloss.

Recommended Surfaces: Gypsum Board, Wood, MDF - Interior

0850 Accu-Kraft Latex Drywall Primer

An ideal product for cost conscious production grade interior drywall priming / finishing. A good primer for flat and low sheen top coats. Excellent pre-texture drywall primer. Not recommended for use under satin, semi-gloss or gloss latex finishes or alkyd paints.

Recommended Surfaces: Gypsum Board - Interior

0859 Cap Prime Coat Drywall Primer

An excellent, fast dry, production grade interior drywall primer. A good primer for flat and low sheen top coats. Excellent pre-texture drywall primer. Easy spray application with fast drying properties. Not recommended for use under satin, semi-gloss or gloss latex finishes or alkyd paints.

Recommended Surfaces: Gypsum Board - Interior

0873 Quick Prep Interior Drywall Base Coat

An excellent base coat for latex or oil-based paints. Primes and seals new drywall, wallboard and previously painted walls, cured plaster and spackle. Assures tight bonding and increased coverage of the finish coat. Dries quickly so finish coat may be applied on the same day. Minimizes surface texture difference between joint compounds and drywall facing paper.

Recommended Surfaces: Gypsum Board - Interior

0880 Pro Finish Latex Sealer

Our best production quality primer / sealer that is ideally suited for interior plaster, drywall, masonry and concrete surfaces. This durable product may be used under all interior finishes. A fast drying, low odor primer / sealer that is excellent for commercial applications.

Recommended Surfaces: Gypsum Board, Plaster, Concrete, CMU - Interior
